

# REVANT KUMAR

391 17th Street NW Apt 2058, Atlanta, Georgia 30363

+1-650-440-8946 • rkumar74@gatech.edu • <https://www.linkedin.com/in/revantkumar>

## EDUCATION

**Georgia Institute of Technology • USA**

***Master of Science in Computer Science***

(August 2014 – December 2015 (Expected))

**Selected Coursework:** Machine Learning • Data and Visual Analytics • Algorithms • Social Computing

**Indian Institute of Technology Guwahati • India**

***Bachelor of Technology in Mathematics and Computing*** • GPA: 3.9/4.0

(July 2010 – May 2014)

**Selected Coursework:** Introduction to Computing • Data Structures • Data Structures Lab • Design and Analysis of Algorithms • Probability Theory and Random Processes • Operating Systems • Scientific Computing

## WORK/RESEARCH EXPERIENCE

**Japan Advanced Institute of Science and Technology • Japan**

***Research Assistant***

(May – July 2012)

- Developed a Small Space Algorithm for Removing Small Connected Components from a Binary Image with Professor Tetsuo Asano.
- From an algorithmic point of view, the problem can be solved in  $O(n)$  time and  $O(n)$  work space.
- Proposed a new algorithm for computing the size-threshold binary image for any binary image of  $n$  pixels in  $O(n \log n)$  time using only  $O(\sqrt{n})$  work space.

**Institute of Statistical Mathematics • Japan**

***Research Assistant***

(May – July 2013)

- Worked on Density Estimation in Infinite Dimensional Exponential Families with Professor Kenji Fukumizu.
- Reviewed the Mathematical Equations for the Journal Paper.
- De-bugged the Matlab Code which was later used for simulation.

## PROJECTS

**Collecting and Visualizing Last.fm Data • Georgia Institute of Technology**

(August 2014 – Present)

- Used the Last.fm API to download data about music tracks, and 100 similar tracks for each track.
- Wrote Python Scripts to create and clean the data files using the downloaded Last.fm data.
- Used the tool Gephi to visualize the data as an undirected graph.

**Building a Search Engine • Udacity**

(June – July 2014)

- Built a search engine using Python.
- Implemented key search engine components including a Crawler, an Index and a Page Rank Algorithm.

**Machine Translation System using Translation Memory • Indian Institute of Technology Guwahati**

(January – March 2014)

- Implemented a Machine Translation System using Translation Memory.
- Found close matches from Translation Memory using Edit-Based Distance.
- Worked on Target-Language Edit Hints.

**Generating the Initials of a Signature • Indian Institute of Technology Guwahati**

(November 2012)

- Implemented Cubic Spline Interpolation Technique to generate the initials of a Signature.

## HACKATHON

**eBay Discovery • HackGT**

(September 19-21, 2014)

- Built a web interface to play and interact with eBay APIs.
- Used eBay's Finding API and Shopping API to extract details about sellers and items searched by the buyers.
- Wrote Python scripts to parse the data obtained in JSON format which was later used by the UI Team.
- Used D3.js to make visualizations for Price Trends Analysis of items returned by the keyword search.

## SKILLS

- Programming Languages: C, C++, Python
- Familiarity with Matlab, SQLite, HTML, D3.js, Gephi,  $\text{\LaTeX}$
- Familiarity with Linux, Mac OS X, Windows
- Natural Languages: English, Hindi, Spanish (Current Level 7 on Duolingo), Japanese (Basic)

## PUBLICATIONS/POSTERS/PRESENTATIONS

- Journal Publication: Tetsuo Asano, Revant Kumar: A Small-Space Algorithm for Removing Small Connected Components from a Binary Image. IEICE Transactions, Vol. E96-A, No. 6, pp. 1044-1050 (June 2013)
- Poster: Revant Kumar, Arjun Sharma, Sandipan Dandapat and Partha Sarathi Mandal: Machine Translation Systems Using Translation Memory. IIT Guwahati (May 2014)
- Mention in Acknowledgements: Bharath Sriperumbudur, Kenji Fukumizu, Arthur Gretton, Aapo Hyvärinen: Density Estimation in Infinite Dimensional Exponential Families. arXiv:1312.3516 [math.ST] (December 2013)
- Presentation: Revant Kumar and Ulrich R de: "Multigrid Methods", 11th Indo-German Winter Academy, December 11-17, 2012.

## HONORS AND AWARDS

- Erdős Number: 3; Path: Revant Kumar  $\rightarrow$  Tetsuo Asano  $\rightarrow$  Boris Aronov / Frances F. Yao  $\rightarrow$  Paul Erdős
- Best Student Technical Presentation at Techniche, IIT Guwahati in September 2012
- Received MCM Scholarship for 3 years from IIT Guwahati
- Completed Youth Empowerment and Skills (YES+) Course offered by Art of Living
